Strategic Capital Placement | Project Finance

Capital Placement and Project Financing

geoconsult™ links Financiers with Project Developers, nurturing synergistic and strategic relationships.

Our network of well-capitalized investors seeks to place capital, make acquisitions, hold positions and provide thematic structured financing for environment and energy projects in strategic geographic markets worldwide and select industry sectors and sub-sectors.

Working closely with highly specialized affiliates worldwide, we connect viable commercial projects with mission critical, early stage development and incremental growth investment capital.

We choose our projects carefully and have a strong professional and personal interest in our client's ongoing success and beneficial leadership impact on respective industry sectors. We seek to optimize cross-sectoral project integration.

Current projects include, but are not limited to:

Food, Agribusiness, Fisheries, Pharma/ Nutraceuticals, Green Chemistry

Utility and Large Commercial Scale Solar (CSP/PV) Project Development

Biomass Production

Biomass to Energy

Municipal Solid Waste (MSW)

Waste Management

Waste to Energy

Biogas

Renewable Diesel

Biofuel and Biodiesel

Liquid Fuel and Derivatives

CO2 and GHG Abatement
